Source: Business Insider. (2019)

The most popular diets millennials want to try in 2019.

22%
of US consumers agree they seek out new health trends

Source: Mintel. (2019) *Diet trends for long-term human and planetary health.*

Jump start your application development with our new ZERO NET CARB MIX

We're excited to introduce **Zero Net Carb Mix** – a dairy-free, vegan and no-added-sugar mix developed for low carbohydrate consumers. It's also Keto friendly, making it an excellent choice when developing applications for this rapidly growing diet. In the spirit of innovation and imagination, our mix allows for diverse customization for your finished products.

WHAT IS "ZERO NET CARB"?

$$\text{Total amount of carbohydrates} - \text{Total dietary fiber} = \text{ZERO}$$

WE MAKE IT EASY

We've done the hard work! Our Zero Net Carb Mix offers ease of use while reducing scaling errors and providing consistent product results. It's also versatile, allowing for customization and multiple finished applications.
